**(2011) Kunci Jawaban Cost Accounting Horngren Edisi 14**

Decision Guide Cost Accounting 14e by Horngren Chapter 02 . Taking into account the change in specific volume for August 2011, the total cost of production per unit is used. Example. In July 2011, the organization received a batch of products from a supplier. The total cost of the lot was 10,000 kroons, including VAT - 1,200 kroons. In August 2011, part of the batch was sold at a price of 500 kroons per piece, ie 1,500 kroons less than in July. Per unit, the cost per unit was:  $500 \times 1000 = 50,000$  crowns. In July 2011, the total cost of production per unit was:  $1,200 + 50,000 = 6,200$  kroons, including VAT of 800 kroons.
